

Technology Changes

Be it Macs, iPods, iPhone, iPads or other Apple related technology we have it covered!

Regardless of your level of knowledge it is hard to keep up with the constant change. A user group offers that opportunity.

The membership of the Princeton Macintosh Users Group is large, mostly non-university, and includes Apple users of all levels.

We are big enough to draw high-tech multimedia professionals from the private sector for presentations and to be sought out by top software vendors. We're also flexible enough to be valuable to beginner and intermediate Apple users.

Knowledge is a two-way street, and PMUG also offers the opportunity to share your experience with others.

PMUG has about 200 members within a 50 mile radius of Princeton, New Jersey, with a monthly meeting attendance of up to 100. We are a highly diversified group, with many different backgrounds and occupations, ranging from education and the arts to government to large and small businesses.

User groups are more valuable than ever to users of all levels of expertise. Whatever your field or level of knowledge, there are PMUG members who can share your interests, advise on hardware and software problems, and expand your horizons.

Meetings and Membership

Regular Monthly Meetings

Meetings are open and are held on the second Tuesday of each month on the Princeton Theological Seminary Campus. Look on www.pmug-nj.org for changes in meeting locations. Socializing and the Q&A groups begin at 6:15 p.m., the business meeting and program begin at 7:30.

Additional Support and Help

The Intermediate/Advanced Group meets at 6:15 before the general meeting as a concentrated Q&A period for intermediate to advanced users. Our Beginners Group also meets at 6:15 and provides a more intimate forum for new users. As you meet your fellow members, you will find others with similar interests and those with expertise who can help or suggest avenues towards solutions.

Membership

The Princeton Macintosh Users' Group is a volunteer organization open to all, whether or not affiliated with Princeton University. All current and potential Apple users are welcome to join.

Guests and New Attendees

Nonmembers are invited to stop at the Welcome Desk before the meeting convenes to learn more about how PMUG can meet their specific needs and interests. The Welcome Desk is located just inside the auditorium.
